

# **Report on The Work Done on The bnsatnalika.org Website:-**

**Name:-** Snehasis Saha

**Date:-** 31/5/2013

**Institution:-** Vellore Institute of Technology

**Current Position:-** Intern at bnsatnalika foundation.

### 1) Search Box:-

Entered a search box in each of the web pages so that the user can search either from the bnsatnalika website or from entire google.

### 2) Removed errors:-

Changed the “feedback” tab to “past works” tab in <http://www.bnsatnalikafoundation.org/gallery.php>. Removed the warnings from advertise.php.

### 3) Forum:-

The forum tab has been added on the top right corner. Phpbb has been used to create the forum. I had to create a database for the forum to be connected. It is present inside the phpbb3 folder.

Database name:- bnsatucr\_forum

Database user:- bnsatucr\_bnsat

Database user password:- bnsat\_bnsat

Administrator login of the forum is:-

Username:- bnsat

Password:- bnsat\_bnsat

### 4) Polls:-

The polls have been created using the pollcode website. The coding has been done in the poll.php file. The poll tab has also been put up on the top right corner.

### 5) Comment page:-

The comment has been created using html comment box. The coding of this page has been done in the comment.php file. The comment tab can also be found on the top right corner.
